BIOGRAPHY

Sera Nox is a Belgian DJ with Dutch and Southern Italian roots, based in the warm south of Limburg, just a few kilometres from the picturesque city of Maastricht. A '90's baby', raised on electronic music with both parents sharing a deep love for rich grooves, strong basslines, and timeless tracks. This passion, passed on from an early age, naturally shaped a deep connection to Techno, Melodic House & Techno, Tech House, and Minimal.

THE RIGHT VIBE

With creative transitions and a personal touch, sets unfold into hypnotic journeys full of flow, tension, and energy, keeping the dancefloor in constant motion. Rather than playing hits, every track contributes to a larger story. Rooted in the underground, performances feel at home in dark, intimate clubs while bringing the same intensity to festival stages. The sound moves seamlessly between powerful Techno, Melodic House & Techno, Tech House, and Minimal, perfect for both peak-time energy and deep, groovy journeys. Sera Nox is the right fit for underground clubs, warehouse nights, festivals, intimate events, and refined lounges, always crafting the right vibe for a personal and lasting experience.
